Wheat Wizard

DANGER WHEELER, Canada's wheat wizard, gets \$20 a bushel for Early Triumph, his new variety of seed wheat. It ripens 19 days earlier than any other wheat and yields 8 to 10 bushels more to the acre.

That helps all farmers, by increasing their possible profits. It also moves the wheat belt 100 miles farther north, putting millions of acres under cultivation.

Wheeler, on his Saskatchewan farm, has a wheat production record of 52 bushels an acre. In international exhibitions he has won the world's championship five times.

Men like Wheeler and Luther Burk will be the outstanding figures of our time, when a really civilized posterity rewrites history and his wars, Kaisers' and Fatty Arbuckles where they belong—on a ark seat.

The dinnerpail will be the really important thing when the United States becomes as thickly populated as China.

Wedding

AFTER being twice married and twice divorced, J. M. Taylor and Rebecca Brewer, of Blackey, Kentucky, have married a third time.

Love passeth all understanding. Psychologists say love is the twin of life, on the theory that extremes are, hence even perfectly matched couples have occasional spats.

Would you like to get rid of your life? Or husband? After a few weeks apart, you'd probably change your mind. What married couples desperately need is a vacation from each other, not divorce.

Daredevils

DAREDEVILS form a suicide club in London, membership limited to 12. Initiation includes riding a motorcycle thru a plate glass window.

Self-preservation is a man's first instinct. It's a rare case where an instinct can be smothered by a size for thrills.

Nearly every one has passed a danger big enough to add him to the suicide club if he hadn't have to be premeditated. When conversation lags, stirrings up by asking: What's the worst escape you ever had from death?

Wills

A will filed in Chicago, Ephraim Henry Atwood will forfeit \$30,000 if he ever smokes a cigarette. His younger brother, Ivan, will pay the penalty if he ever drinks champagne.

That's bad for both. Since Adam Eved, forbidden fruit has had a wretched lure. Many of us don't do it to do a thing until it's provided—like the folks that never get for liquor until the country is at hand.

Rhine

GERMAN soldiers on the Rhine dread the day when they will be to come home. So do the Germans, who owe us about \$244,000,000 for maintenance of the Yankee heavy corps, but still are treating us like star boarders.

That's the report brought from the headquarters by Lieutenant A. Cody.

German diplomacy centers on using the favor of America. Dollars, what's a trifle like \$244,000,000 to a German that has agreed to indemnity of \$34,000,000,000 in bonds?

Disarming

ARMED entirely and completely abolish war. Says a resolution adopted at the World's Methodist conference, in London, representing 600,000 church-goers in many countries.

That's shooting at a higher target than the political diplomats who will end the disarmament conference in Washington, which intends to go further than limiting armies and ships. But it's the target the peace-lovers—complete disarmament.

Diplomats can start disarmament, armies and schools could finish it. In time, they will.

Hoboes

THE Hoboes' Union, thru its secretary, L. Francis Shea, offers aid to Secretary of Labor Davis to solve the unemployment problem.

Hamp has solved the problem, high passenger rates. Maybe it could help solve the unemployment problem by telling us their system of dodging work, then we could end the system.

Taxes

CORPORATION taxes will not be cut before the end of the year, says the Senate finance committee.

News for the big fellows who wanted the cut retroactive to Jan. 1, 1921, to reduce taxes on this profits.

ARBUCKLE TO BE TRIED FOR MURDER

U.S. TIED BY NEW PACT, SO G.O.P. SENATORS TURN

(BY L. C. MARTIN)

WASHINGTON — (By United Press) — Opposition to the Harding treaty of peace with Germany was understood today to have developed in Republican senatorial ranks on the ground that the pact entangles the United States in European affairs almost as much as the league of nations covenant.

How far this opposition will be reflected in votes of Republican senators, is uncertain. Criticism of the pact is not confined to senators who were irconcilable to the Versailles treaty, however.

Senators have been studying the new treaty for several weeks. In several instances they have consulted their colleagues about its provisions. A number are convinced that the treaty ties the United States into the Versailles treaty as surely as the they had ratified that instrument.

It is significant, however, that no Republican senator, irreconcilable or moderate, is ready at this time to state his opposition publicly. Strong party considerations may keep the number of Republican votes against the treaty to a low figure, party leaders feel.

Democratic opposition is expected as a matter of course. But Republicans generally, it is predicted by their leaders, will trust President Harding and Secretary Hughes not to make the treaty a means of embroiling the United States in European affairs.

The Republican opposition is based upon the fact that the treaty claims for the United States participation under the reparations, and economic clauses of the Versailles treaty.

TRADE AT OMAHA ENCOURAGING

Spillane Finds Business There Generally on Increase.

BANK DEPOSITS GROWING

Boost Shown by Men Representing All Lines.

(BY RICHARD SPILLANE)

OMAHA, Sept. 16 — Twelve men representative of Omaha's varied interests met at the chamber of commerce and reported to your correspondent on the business situation in this city. The men were:

C. C. George, real estate, director of the Chamber of Commerce of the United States.

C. H. Pickens of the Paxton Gallagher Company, one of Nebraska's largest wholesale concerns, dealers in groceries, hardware, automobile accessories, sugar, coffee, etc.

O. C. Willis, manager, Aimour & Co.

Paul Kuhns, president Chamber of Commerce and president Conservative Building & Loan Association.

A. C. Scott, manufacturer heavy road machinery.

D. P. Hogan, president Federal Farm Bank.

Reg. T. Byrne of Byrne-Hammer Dry Goods Co., wholesale dry goods.

E. T. Recter, of Fairmont Creamery Co., which operates in many states and pays out \$25,000,000 a year for cream alone.

C. H. Wright, president grain exchange.

A. B. Currie, wholesale coal.

Mr. George said the housing situation was by no means good and rents were from 50 to 100 per cent above the pre-war level. At the same time there was many empty warehouses which indicated there was no surplus of materials or goods in hands of distributors.

Mr. Pickens reported the first eight months of this year showed quite an increase in grocery sales over the same months last year. Hardware sales were about sixty per cent of normal but steady and increasing improvement in this line was evident. The whole outlook in the various lines of goods he handled was more promising than earlier in the year. Collections good.

Mr. Willis explained that his business recently. There was some building conditions. The man with the dinner pail cut a big figure in the consumption of Armour's products. For the first six months of this fiscal year the business has been poor. Then there had followed by slump in the last three or four weeks. Packing's products were not moving freely today and prices were not satisfactory.

Mr. Kuhns explained that the building and loan association of Nebraska covered practically the same field as Mutual Savings banks in eastern states. In no period over the last 20 or 30 years had they made a backward step although for a little more than a year they had shown little increase in deposits, until recently. There was some building of small houses in Omaha and he was quite optimistic as to next year.

Mr. Scott explained that he was interested in a great variety of businesses. His tent and awning company was one of the largest in the world. In sales this company showed 35 per cent increase over last year, but its prices have been cut in half. He made clothing for packing house men. This was slow just now as it was governed by the state of the packing house industry. In the packing house his business showed 20 to 25 per cent increase this would be cheering but for the fact that he was churning but not paying their bills. He anticipated a big amount of road work for next year. He also handles Packard cars. This business had picked up wonderfully. In the last few weeks his sales had been in excess of the previous six months.

President Hogan said the farm

GIRL'S SECRET IS REVEALED BY FRENCH HEELS

CHICAGO — (By United Press)

—French heels caused the undoing of Miss Helen Morsey, 21, who said she had "beat her way" on box cars all over the country for six months.

A pair of French heels, protruding from Miss Morsey's overalls caused suspicion of police who arrested her.

Frank Dugan, self-styled "knight of the road," was arrested with the girl. He said they had been "bumming" together.

Police plan to release the pair today.

Miss Morsey said the last place she worked was in Columbus, Ohio, in a department store, which she refused to name.

IRISH SITUATION IS AGAIN CRITICAL

British Parliament May Be Summoned to Act.

LONDON — (By Associated Press)

—Relations between England and Ireland stood today as they did before Eamon De Valera came to London on July 14, to discuss with Prime Minister Lloyd George a possible basis for ending the Irish controversy. The Sinn Fein leader yesterday made public his note to the prime minister affirming his stand that Irish republicans accepted the British cabinet could enter a conference only as delegates of an independent power, and Mr. Lloyd George quickly announced the cancellation of his invitation of Irish leaders to a parley at Inverness.

"It was made plain by the prime minister that he could not meet the Sinn Fein delegates if the claim of Irish independence and the sovereignty were insisted upon, but he did not close the door to further exchanges with the republicans. Mr. Lloyd George is indisposed, and is confined to his room at Clapham, Scotland, where he has been spending a vacation, and it is expected here that members of the British cabinet will confer with him before the government takes further steps. When the cabinet met at Inverness on September 8, a committee was appointed to deal with any situation which might develop as a result of exchanges with Dublin. These ministers left Inverness for various parts of Scotland and England immediately after the Inverness meeting and it would take several days to gather them for a conference on the present official situation.

MAY CALL PARLIAMENT

The British parliament adjourned on August 10, until October 13, but Prime Minister Lloyd George announced before the adjournment that if negotiations with the Sinn Fein broke down and the position became hopeless, the speaker of the house of commons would be empowered, after consultation with the government, to summon parliament on forty-eight hours' notice.

There was no indication here today that either the British government or the Sinn Fein would denounce the truce arranged two months ago and resume the guerrilla warfare that cost scores of lives and destroyed property valued high in the millions. Warfare is the last thing either side desires, and no effort, apparently, will be spared to prevent any overt acts that will place on either the responsibility for resuming hostilities.

STRIKE MAY TIE UP NATION'S MINES

More Pay Is Demanded By The Coal Diggers.

INSIST ALSO ON 6-HOUR DAY

Indianapolis Meeting Tuesday Likely to Decide Action.

(BY ROY GIBBONS)

INDIANAPOLIS, (N. E. A. Service).—Grave apprehension is felt at headquarters of the United Mine Workers of America that there will be another national coal strike next spring.

Every present indication points to a walkout of 800,000 unionized anthracite and bituminous workers. This forecast is based on these disclosures:

THAT miners are dissatisfied with the present working and wage scales.

THAT they will demand more money from the operators.

THAT the coal operators will refuse on increase and insist on a reduction of the present basic wage of \$7.50 a day.

THAT every agreement and contract in the country between the miners and operators expires March 31, 1932, which is unprecedented.

THAT the miners almost without exception consider they were treated unfairly by interference of the government during the last strike when an increase of 27 per cent in wages was granted, compared to their demand for a 60 per cent advance.

NATIONAL CONVENTION

On Sept. 20 miners delegates will assemble here from every section of the United States and parts of Canada.

Already they have made known their determination to fight to the last ditch for preservation of present wage scales and an increase above the basic \$7.50 a day rate.

According to President John L. Lewis, never was there a period in the coal industry when miners were so "centrally wrought up over the wage controversy."

Some of the proposals call for enactment by the convention of demands on coal operators for wage increases of 70 per cent.

By contrast, certain operators in various parts of the country have posted notices that their miners, after resuming operation, will run on reduced wage scales.

Some operators have even sent delegations to the miners' headquarters here entreating President Lewis to sanction a pay cut.

To these Lewis has replied "that the miners will never consent to a lower scale and will fight to the last ditch any attempt to bring about such a reduction."

RESTING ON DYNAMITE

In the opinion of one high officer of the mine workers' organization, the probability of a national coal strike is very imminent. He says: "The entire situation is resting on a load of dynamite. Not very much is needed to set off the charge."

Some other resolutions received in advance of arrival of the delegates who formulated them, call for:

Government interference with the import of Mexican oil which is competing with the coal industry, by institution of a high protective tariff.

Nationalization of all coal mines in the United States as a means of preventing such disorders which recently occurred in West Virginia.

Steps to bring about the amalgamation of transport workers, railroad employees and miners into a national body, each to co-operate with the others in event of strike.

Release of Eugene J. Debs from prison.

Absolute disarmament.

Recognition of Soviet Russia.

A six-hour day.

A five-day working week.

"Wages and wages only is to be the big issue," says President Lewis. "There can be no reduction. Further than this I cannot comment."

In event of strike, the union could call out every member, thereby completely tying up not only the bituminous but also anthracite production.

PENNSY PETITION REFUSED BY RAILROAD LABOR BOARD

Road Must Treat With Federated Shop Craft Officials, the Federal Body Rules—Company Is Expected to Ignore the Order

CHICAGO — (By United Press)

—The United States railroad board has prepared a ruling which refuses the petition of the Pennsylvania railroad labor board that it be allowed to treat with its 32,500 employees without meeting federated shop craft officials, it was learned today.

That the road may refuse to abide by such a decision, was intimated by utterances of its officials and by its petition to the board which went so far as "insisting that it be granted the right to deal directly with its employees instead of 'outside' labor officials."

NO PENALTY FIXED

Added significance was given this attitude by the fact that the Pennsylvania, for months has been fighting the battle of all the roads before the board.

The way for the Pennsylvania to violate a ruling of the board is easy as there is no penalty for violation of the board's edicts, members of the organization have said.

Public opinion will be the deciding factor—the court of appeals over the railroad board, according to one railroad official.

This statement of Elisha Lee, vice-president of the Pennsylvania, was considered significant.

OTHERS MAY FOLLOW

"Under no circumstances can we honorably pursue the course dictated by the railroad board,"

The Pennsylvania, for months, has been fighting the battles of all the other roads, before the board. It was that road which first entered the petition for the slash in wages, which became effective July 1. Other roads then filed their individual petitions.

If the Pennsylvania is successful in defying the board, it is generally believed other roads will follow that course.

Sentiment of workers, who have voted overwhelmingly against the wage cut of July, toward the "open shop" trend of the roads, will be tested in Chicago and several other cities Sunday when mass meetings will be held.

LAWYER ROBBED

Held Up Near Cincinnati—\$1,150 Taken by Bandits.

COVINGTON, Ky. — (By Associated Press).—Charles S. Sparks, attorney of Cincinnati, was robbed of \$1,150 while driving along the Dixie highway south of Covington, late last night.

Three young men who had a high powered car blocked his path and compelled him to stop his machine. The attorney said, today, he knows one of the robbers, and that he will swear out a warrant for arrest of the man.

ACTION DECIDED BY PROSECUTOR

Announced After Comedian is Arraigned in Police Court.

CASE UP NEXT THURSDAY

Forty Quarts of Liquor Consumed at Party.

SAN FRANCISCO. — (By Associated Press). — District Attorney Brady announced in the police court that "the people are ready to proceed on the murder charge" against Roscoe C. (Fatty) Arbuckle, who is held responsible by the authorities for the death of Miss Virginia Rappe, a motion picture actress.

The announcement came after a conference between Brady and Police officials called for the purpose of deciding which of the four charges against Arbuckle would be tried. There are two murder and two manslaughter charges pending against Arbuckle.

Judge Lazarus continued the case until next Thursday at one p. m.

LIQUOR FLOWS FREELY

LOS ANGELES, Calif. — (By Associated Press). — More than forty quarts of liquor were consumed in the party in Roscoe "Fatty" Arbuckle's suite in a San Francisco hotel, that ended with the death of Miss Virginia Rappe, according to information given federal officials here last night by Frederick Fischback, a member of the party, it was announced early today by Robert Camarillo, assistant United States district attorney.

Fischback's statement, which was taken down by a stenographer, was given in the presence of Mr. Camarillo, E. Forest Mitchell, federal prohibition director for California, J. Robert O'Connor, United States district attorney for Southern California and other federal officials, according to Mr. Camarillo.

Twenty bottles of whiskey, Mr. Camarillo said, Fischback told them were taken in Arbuckle's car from Los Angeles to San Francisco and while he was at the hotel a case of gin was taken to Arbuckle's suite by a "tall thin man" and other liquor "by a dark stranger."

The statement was given at Fischback's residence.

The home of Lowell Sherman, another of the Arbuckle party, was visited by the federal officials seeking further data.

The officials stated that if Fischback's declaration were substantiated, Arbuckle's automobile, said to be valued at \$25,000, would be confiscated under the term of the Volstead act.

FACES COURT TODAY

SAN FRANCISCO. — (By Associated Press). — District Attorney Matthew Brady, of San Francisco, has announced that he will make public today his decision whether to try Roscoe (Fatty) Arbuckle for murder in connection with the death of Miss Virginia Rappe, or whether he will prosecute solely upon the manslaughter indictment returned by the grand jury.

Arbuckle was to be arraigned before Police Judge Sylvan Lazarus today for preliminary examination on a charge of murder preferred by Mrs. M. B. Belmont.

Attorneys for the film star yesterday deposited \$5,000 each bail to cover the manslaughter charge and should District Attorney Brady announce his decision to prosecute on that charge alone and dismiss the murder complaint, Arbuckle would be eligible for release. Should decision be made to prosecute for murder, however, Arbuckle would be forced to remain in jail unless his counsel could arrange for bail on this charge. Under California law first degree murder is not a bailable offense.

MOVIE CLEAN-UP STARTED

LOS ANGELES. — (By United Press). — A drive to "clean" the Hollywood motion picture colony was started here today as a result of the Fatty Arbuckle disclosures.

Robert McCormick, federal prohibition director, sent ten "dry" detectives to Hollywood to "go to work" on the movie industry. They expect to ascertain where the wilder spirits among the movie people have been getting the liquor for their sensational parties.

The Los Angeles Women's Vigilance Committee was reported ready to make public an expose of conditions. This committee was said to have placed a number of women as "extras" in the studios to investigate the treatment and temptation of young girls.

The movie producers themselves, have started a quiet "clean up" from the inside. Actors whose private lives, and spectacular booze and dope parties, have long been a scandal to the respectable motion picture actors and actresses, will be quietly dropped from their companies under this plan. By gentlemen's agreement, other producers will refuse to employ them, and they will be driven out of movie land.

Those who are backing this clean-up campaign feel that it is essential if the movie are to continue to enjoy the confidence of the public.

WAPAK MAN INJURED IN FALL ON LIMA STREET

D. F. Brown, employee of the Wapak Holloway Co., at Wapakoneta, in Lima late Thursday afternoon, on a business mission for the company, slipped and fell on a pavement and sustained injuries of a painful character.

Two large scalp wounds were inflicted and Brown's hip was bruised in such a manner that it was some time before he was able to walk. The force of the fall produced partial unconsciousness. Brown was assisted to his home on S. Perry-st., Wapakoneta.

GIVES ASSURANCE OF ROAD WORK

Harding Highway to Get Attention Next Year.

Assurances that the state will push thru the improvement of the Harding Highway next year, if counties along the route will do their share, were given by Director Leon C. Herrick to the road association, Friday.

In a recent address in Columbus, Herrick promised aid to the Lincoln Highway and Carl Gogger, chairman, president of the Harding Highway association wrote concerning the matter, as did J. Kennan Johnson, secretary.

In reply, Mr. Herrick stated in part: "I have repeatedly made the statement that I intend to use the Harding Highway in the western part of the state and the Lincoln Highway in the eastern part and have endeavored to get out plans and take up construction next year."

"We shall very likely soon have Federal money and I am very much in hope that sections of the Harding Highway will have the attention of local authorities to the end that they make proper certifications and carry on a good mileage of construction next year."

"It is my idea that as soon as Congress convenes, this appropriation bill will be passed and immediately I will be glad to certify any amount of funds which the counties care to cover on this Harding Highway."

A meeting of directors of the association has been called by President Gogger, to be held here during the Kiwanis convention. A majority of officers and directors are Kiwanians. The meeting is for the purpose of seeing what can be done in the five counties toward carrying out Herrick's suggestion to be ready to go next year.

SECOND JUDGE IS NOT DISCUSSED

Bar Association Men Hear Talks By Members at Dinner.

Discussion relating to the establishment of a second judge for Allen county common pleas court, was omitted and the subject was not brought up at the dinner and meeting of the Allen-co bar, held Thursday evening at Hotel Argonne.

The matter may be considered at a latter date, Justice Ernest M. Hotkin, president of the bar association, said. Plates were laid for 43 lawyers.

Justice Hotkin was toast-master. Speakers were: Attorneys T. R. Hamilton, D. C. Henderson, Francis W. Durbin, Walter S. Jackson, Calvin Selfridge, A. M. Rodgers, M. L. Becker, George H. Quail, W. L. Mackenzie and Judge P. C. Becker.

Attorney Selfridge gave a report of the meeting of the American and Ohio state bar association at Cincinnati recently, to which he was sent as a delegate from the Allen-co association.

MEN AND MATTERS.

James G. Bigelow of this city, a member of Company K, of the 46th O. V. V. I., attended the annual reunion of his regiment at Van Wert, Wednesday and Thursday.

Dr. J. J. Sutter, county health commissioner, and Dr. J. B. Poling, city health commissioner, were to return here Friday after having spent the past week in Columbus, attending the state conference of city and county health authorities.

Albert Brennan, Merl Markoetter and Carl Hell left Friday for a several months trip thru the west.

Lima friends of Sergeant Paul Sheeley will be interested to learn that he captured the gold medal, the money prize and the silver cup offered by the Marine corps for the best target shooting at their annual rifle shoot recently at Camp Perry. Sergeant Sheeley is a son of Mrs. Lydia Sheeley, 1010 Brice-ave and has been in marine service for three years.

VETERAN RAIL EMPLOYE TALKS

Tells Local People of Experience That Changed His Views on Life.

"When I started taking Pepsogen my hands were so badly swollen from rheumatism that I couldn't close them," says Frank Privette, 35 West Fourth Street, Covington, Ky., near Cincinnati. For 20 years Mr. Privette has been foreman of the bridge painting department of the Southern Railway Co., at Cincinnati.

"I am often inclined to think that rheumatism comes from poor digestion. Anyway, I know my digestion was very poor. After eating I suffered with cramps. I grew so nervous that I couldn't sleep over two or three hours a night. Finally the rheumatism got into my feet and I could scarcely walk."

"I began using Pepsogen and Pepsogen Liniment. I rubbed my hands and feet with the liniment, which relieved the pains almost instantly and I took the Pepsogen tonic to drive the rheumatism out of my system."

"In a few days after I started I began to feel better in every way. I soon had a good appetite and could eat things I hadn't been able to touch for years—no bloating afterwards. I could go to bed and sleep for seven or eight hours without waking up—that was because Pepsogen Tonic helped my nerves and I could do more work and not be half so tired. The liniment took the pain and swelling out of my joints."

"I can heartily endorse both of these remedies and I feel certain that anybody who tries them will not be disappointed."

Pepsogen is a new system tonic which is being specially introduced at Hinters Drug Stores—it is also sold by other leading drug stores in Lima and nearby towns.

WAGE CUT EFFECTIVE FRIDAY ON FT. WAYNE AND LIMA INTERURBAN

A reduction of wages averaging 15 per cent went into effect on the Fort Wayne, Van Wert & Lima Electric line Friday. A similar cut on other lines owned by the Indiana Service corporation was recently made, according to S. M. Greenland, general manager.

Agreements between the company and the men expired Friday. Few persons in Lima will be affected by the cut, as since the Port Wayne line was unscrambled from the Ohio Electric, most of the trainmen have made headquarters in Port Wayne or Van Wert. There is no one officially representing the line in Lima at present.

WOMAN HELD IN \$100

Marie Dodds, 21, S. Union-st, was bound over to the grand jury Friday in Justice Ernest M. Hotkin's court in \$100 bond on the charge of obtaining a \$75 suit under false pretenses from a Lima store.

GIRL KILLED

DAYTON — Mary Alice Brush, six-year-old daughter of Charles Brush, living at Ebenezer, near here, was killed by a Dayton and Troy traction car last evening, directly in front of her home. The child was in the act of calling her brother at the time of the accident. Her body was carried 50 feet before the car was stopped.

WIFE IS CHARGED WITH NEGLECT

Frank Hurley Seeks Divorce—Mrs. Oliver Seeks Freedom.

Frank G. Hurley, in a suit for divorce filed in common pleas court Friday, charges his wife absented herself from his home for periods of two weeks to three months. He accuses her of neglect.

Hurley says his wife finally abandoned him in June of this year and is now said to be in Flint, Mich. The couple were married in Detroit in September, 1912. Their child, Roy Frederick, is six years old.

Abandoned after a day less than a month of married life, the story told by Mrs. Ida Oliver in a suit for divorce from Charlie Oliver, her Italian husband, Mrs. Oliver says he earned not a penny during the married life, after she had given him \$475 to set him up in business. She asks his dower in her property be barred.

Besides squandering that amount, Mrs. Oliver charges her husband took \$400 from her pocket-book without her permission. She says his whereabouts now are unknown. Mrs. Oliver was Mrs. Ida Munson, 305 S. Main-st, before her marriage.

She was a widow and was engaged in housework. She gave her age in the marriage license application as 43. Oliver was born in Italy. He was 38 and conducted a fruit store at 308 S. Main-st.

BOOSE, FAILING TO PAY ALIMONY, MAY BE CITED FOR CONTEMPT OF COURT

Unless alimony, which is past due, is paid by Roger Boose, Judge E. R. Eastman, Ottawa, who heard the contested alimony action of Mrs. Frances Robinson Boose against her husband in July, will set a day upon which Boose must appear in court to show cause why he is not in contempt.

Motion by legal counsel for Mrs. Boose filed in common pleas court late Thursday, asks that Boose be cited for contempt before the judge, because he has failed to comply with the order of Judge Eastman regarding the payment of alimony.

There is now due the amount of \$575, Boose having paid but \$75 of the alimony, the complaint states. Altho Boose was ordered to pay all debts accumulating from the illness of his wife at the time of the birth of their young son, Billy, the motion says there is still due the amount of \$291.50.

MOVIES and MORALS

HOW DO EMPLOYERS REGARD GIRLS?

MRS. CALHOUN TELLS

ALICE CALHOUN

Movies and morals are being discussed everywhere as a result of the Arbuckle case. What price must a girl pay for a movie career? people ask. The question is answered in this series of articles written especially for the Lima News by Mrs. Florence Calhoun, mother of Alice Calhoun, the Vitaphone star who in five years has risen from a 45-a-day extra to a \$1000-a-week performer.

(BY FLORENCE CALHOUN)

Mother of Alice Calhoun, Vitaphone star, the Youngest in the Movies

That beauty is the only asset required to assure a girl success in the movies is a fallacy, but it is a popular belief.

Animated by it, many of Alice Calhoun's fans send their pictures, asking if the originals are qualified for camera work. Some are so charming that she often wonders why fate directed her instead of some other into the world of photo play.

Beauty is essential, but beauty of face and figure Mrs. Calhoun alone will not suffice for enduring success. There must be beauty of soul — and this beauty is achieved by resistance to the temptations that beset the girl on her way to stardom.

These temptations are not necessarily of shadowland. There are many outsiders who make it their vocation to prey upon the girls, and women of screen or stage. These seem to think that because a girl entertains the public, she is public property.

Strength of soul usually goes hand in hand with health of body. And given a certain amount of good looks, of a kind which will photograph to advantage; good health is the next essential to film stardom.

It cannot be denied that beauty of certain special type which directors and camera men recognize at a glance is a factor in the making of a star.

But there is a tremendous wear and tear upon beauty in the movies

of which the young aspirant and the fans seldom dream.

This is not the wear and tear of dissipation — but the strain and tension of quick and precise acting before the camera.

Every woman knows the effect of overwork upon good looks—until one has recuperated.

The movie industry is run primarily to make money. A high-salaried star is a large investment. Hundreds of thousands of dollars are invested in her name alone.

Hence movie producers want a star to safeguard her health. They prize most the star whose private life is such that she will serve them longest on the screen.

This means that every girl, hoping to make a substantial success in the movies, must ordain her life with care.

But there is a supreme morale without which no movie artist ever arrived anywhere. Of it I will write tomorrow.

\$400 FROM FINES IN ALLEN-CO

Liquor Law Violators Contribute To Big State Fund.

Allen-co paid \$400 into the state treasury since November 3, 1929, the time the Crabbe act became effective, up to September 1, 1931, Auditor of State Tracy announced Friday.

The state received \$249,887.65 as its half of the liquor fines collected in all counties of the state during the period. Under the law, each county retains one-half the fines and the remainder goes to the state. Mahoning-co, with \$36,621.70 reported the highest sum, while Knox and Highland-co's were low with \$30 each. Nine counties failed to report.

Amounts received from other counties are as follows: Astabula, \$1,825; Butler, \$559.61; Clark, \$2,822.02; Clermont, \$580; Columbiana, \$3,125; Cuyahoga, \$2,882.79; Erie, \$1,115; Fayette, \$742.15; Franklin, \$5,570; Hamilton, \$2,784.20; Hancock, \$1,187.50; Hardin, \$375; Jefferson, \$11,780.68; Knox, \$50; Lake, \$2,151.39; Lawrence, \$2,522.50; Licking, \$2,398.20; Lorain, \$11,822.80; Mahoning, \$36,621.70; Lucas, \$17,668; Marion, \$2,807; Meigs, \$375; Montgomery, \$11,211; Muskingum, \$252; Ross, \$719.20; Sandusky, \$2,480; Scioto, \$1,055.60; Stark, \$28,450; Summit, \$25,812.69; Trumbull, \$4,945; Tuscarawas, \$8,260; Washington, \$525.10; Wyandot, \$100.

IODINE FOR GOITER IN CHILDREN RECOMMENDED

COLUMBUS — The use of iodine in the treatment of goiter in children was recommended by F. E. R. Hayhurst, professor of hygiene at the Ohio State University before the final session of the health commissioners of Ohio today. He declared that Ohio is included in endemic goiter belt of the country, which extends along the St. Lawrence river basin and the Great Lakes region and that in several cities, notably Akron nearly 50 per cent of the school girls have enlarged thyroid glands.

ROBBERY CONFESSED — John Fusco, 14, whose home is near here and who was caught in a garage here last night, confessed today to robbing the Baltimore and Ohio depot at Ravenna yesterday afternoon and a store at Newton Falls later in the day, according to the police. Railroad tickets, stamps and cash were found in his possession.

AUTO LAMPS AFFORD ILLUMINATION FOR EL KARAN PICNIC

By illumination furnished by headlights of 82 high powered motor cars, members of El Karan Grotto, the families and friends, made merry in Buettner's grove, near Scott's Crossing Thursday night. The occasion was the first annual weiner and marshmallow roast.

By actual count, 528 persons attended the picnic, twice the number planned for, according to Ed Siferd, chairman of the entertainment committee. Five bushels of marshmallows and 1700 pounds of "hot dogs" were consumed by the multitude. Bake shops were sold out of buns.

The festivities commenced at 5 o'clock and lasted until 11 p. m. A 45 minute band concert was enjoyed early in the evening, followed by sports and games. Lights of the automobiles drawn up in a circle turned night into day in the grove.

CRISENBERRY SUSPENDED BY CHIEF ROUSH, WILL BE GRANTED A HEARING

Detective Roscoe Crisenberry, member of the Lima police department, who was dismissed from service by Safety Director Dorris, effective Thursday, is not working Friday. However, it is not thru the safety director's direct actions. Crisenberry was suspended by Chief Roush following a recommendation to this effect from Mayor Burkhart.

The mayor's recommendation is the first official notification of the affair by the chief, Roush says. Crisenberry is to be granted a hearing before the safety director within five days, according to civil service rules. This, however, may be postponed, as Dorris is ill at his home, suffering from a nervous breakdown, it is understood.

PROSECUTOR HELPS — LONDON — Frederick Porter had Nasse Nakama, a Japanese, arrested for assault. But when the question of bail was raised, Porter paid the bond and walked out with Nakama.

DAY AND NIGHT BANK — SHANGHAI — The Shanghai Day and Night Bank has been organized on the plan of remaining open for business until midnight.

BACK TO TEACHING — LONDON — Teaching in England and Wales has become more popular since the end of the war. The Board of Education reports 600 more teachers enrolled this year than last.

NEW ORLEANS — Two hundred fifty-eight youths who have volunteered for service with Spanish troops against the Moors left this port bound for Barcelona.

FEW SURVIVORS OF 180TH IN REUNION

Veterans of the 180th Regiment, O. V. I., held their annual reunion Friday at Memorial Hall.

Their ranks are fast dwindling, according to E. B. Manahan, of Harrod, secretary of the association. Last year only 18 living members of the regiment attended the reunion.

All of the officers are dead, save Lieutenant Huller, of Paulding and Hurst, of Yellow Springs.

Since the reunion last year, Miles Layman, of Waynesfield, vice president, passed away.

John R. Bennett, of Waynesfield is president and Jim Goslee, of Alger, treasurer.

The election of officers for the ensuing year was slated for later in the day.

MASONIC NOTICE — Special convocation of Lima Chapter No. 19, R. A. M., Friday night at 7:30. A good attendance desired. Visiting companions welcome. Wallace Landis, sec.; F. C. Switzer, H. P.

IS WATSON TO SUCCEED LODGE AS SENATE REPUBLICAN LEADER?

WASHINGTON — (Special) — The selection of a new Republican leader is being much discussed by those senators who remain in town. All the conversation centers around the name of James E. Watson of Indiana, to take the position now filled by Henry Cabot Lodge.

Lodge has been chosen as an American delegate to the disarmament conference. He will be busy on that job from November 1 for an indefinite period, probably running three or four months. No intimation has been heard that Lodge desires to relinquish his majority leadership. On the contrary, he has stoutly insisted that he will continue and that he will be available for consultations at any time, his duties not calling him away from this town. Lodge frequently has scoffed at the idea that he will step aside.

Great stress has been laid by Lodge on the availability of Curtis, who is now assistant leader, to fill his shoes. While he is absent from the senate, but these senators who are doing all this gossiping about a new Republican leader say Charles Curtis of Kansas is slated to be made president pro-tem whenever Senator Cummins, the present incumbent, relinquishes the post. This would take him out of the leadership race.

The suggestion has not been made out loud that Lodge will be asked to step aside by declaring the disarmament party requires all his time and none will remain for party leadership.

Not long ago Hitchcock was de-

Sen. James E. Watson

posed by the Democrats as minority leader and Underwood given his place. A similar method might be practiced in the case of Lodge, but it is not in sight. It is a matter entirely under the control of the Republican conference.

Watson is a protégé of Penrose and will have the full support of that former head of the Old Guard.

\$10,000 IS PAID IN DEATHS

Families of St. Marys Men Receive \$5,000 Each.

ST. MARYS — (Special) — The families of Curtis Boroff and Vernon V. Howe, the men who lost their lives July 12, 1921, when overcome by sewer gas in the sewer pump well here at the disposal station, have received \$5,000 each from the state compensation department. The sum of \$10,000 divided between these families, will assist the widows of the men in rearing and educating their children.

Leo Wehrman, an employee at the New Bremen woolen mill, while unloading a case of blankets, Thursday, in some manner twisted his left leg and broke one of the bones near the knee.

In the closing session of the Anti-Lutheran conference, here Thursday at Zion church, Rev. H. Brobst attacked the teaching of evolution in the schools, holding that such things undermine the faith of young people. A men's mass meeting is to be held at the church here October 9, afternoon and evening, when a large number of visitors will be present from Lima, Wapakoneta, Sidney, Anna, Botkins and Celina.

ROBBERY AT VAN WERT; HOOTCH MAKER FINED

VAN WERT — (Special) — The Home restaurant on E. Main-st. here was robbed Thursday night of about \$60, according to report filed with police. The theft was pulled while the clerk in charge of the place, late at night, fell asleep for a short time.

Parties headed eastward in an auto were supposed to have perpetrated the theft. Use of the telephone in notifying Delphos and Lima officers failed to bring about the arrest of the parties.

Samuel Noggle, 68, residing east of this city, arrested Wednesday, was arraigned Thursday on a charge of manufacturing liquor. He was fined \$500 and costs. Twenty-five gallons of liquor in a raw state was found on Noggle's place.

APPEAL MADE FOR BED CLOTHING AND LINEN

An appeal to Lima women for bed clothing and linen is being made by members of the Girls Social Service club. The club has several families, among them, one with eight children, who are in dire need of all kinds of bedding. This family recently lost one child in death and another is in need of medical attention. Anyone wishing to donate linen that such things undermine the faith of young people. A men's mass meeting is to be held at the college, or call Mrs. Irene Jackson, at Main 3542.

HAREM DECLARED EAST WISDOM

Best Adapted To Woman's Nature, Says Turkish Novelist.

HAVE LIBERTY, NOT LICENSE

Attacks Modes of Living in Civilized Lands.

ANGORA.—(By Associated Press) The seclusion of the harem is best adapted to woman's nature and is best for the social order that she should be there," declared Muride Ferid Hanem, the Nationalist novelist and beautiful wife of Ahmed Ferid Bey, ex-minister of finances to the correspondent in an interview. "The harem grew out of the intelligent understanding of the marriage relation. It represents the wisdom of the east WOMAN'S RIGHTS

"I am a reformed woman's rights advocate," she continued. "I used to yearn for the independence of the American and European woman, but now I believe the mistress of the harem is a superior product to the spendthrift Russian woman, the sentimental Austrian, the nagging English woman and the calculating, self-centered American woman.

"To these women, woman's rights means the right to spend money on foolish finery, to marry late, and be childless. They live for the store and the theater. They are responsible for a good deal of factory labor expended in useless directions. They don't work with their hands to make their clothes, their minds are filled with fashions, novels and candies.

MEET THE SLAVES

"You have become their slaves. You call this western civilization. We Turkish women have had our heads turned by the effort to become as these civilized women, and in doing so some of us have lost our sterling old-fashioned qualities and become a costly, vain, destructive creature like our sisters of the West.

"We nationalists are in favor of

abolishing the theory of polygamy, tho in fact it has long since ceased as an institution. But we are sure woman's place is the home, and the best way to keep her there is the harem, which gives her much liberty but not license. We're good housewives, we wear more or less a uniform gown and veil, in the streets, which prevents us being victims to fashion, and at home, if we do not wish to see our husbands we are not obliged to do so. Surely that is liberty enough."

Dinner Bell Nut Margarine

is really butter and the very best in the market. It is always sweet and gives perfect satisfaction. Buy a pound and if it is not as represented return it and get your money without question, as we want only satisfied customers.

Dinner Bell is the most economical because it is really the very best. Don't let any dealer try to hypnotize you by offering you something he says is just as good. There is nothing in the so-called nut margarine that are just as good. Dinner Bell is a butter of quality. It is in a class by itself. Your grocer sells it or can get it for you.

The highest quality, always pure wholesome and always sweet, with a fresh butter flavor.

TRADE AT OMAHA ENCOURAGING

(Continued From Page One)

Even situation was improving. This bank now was lending about \$1,000,000 a month to the farmers. There was a large demand. Farmers, he said, were inclined to criticize the railroads sharply for the prevailing high freight rates.

Mr. Bryne said there had been steady improvement in wholesale dry goods since May. Now it was 85 per cent of last year in volume and 65 per cent in price. In some articles there was a famine. Ordinarily he would have 10,000 or 12,000 dozen work shirts on hand now. Today he did not have a dozen. Not 2 per cent of his orders for work shirts had been covered. In shirts it was the same story. So also as to silk hosiery. He received 150 pleading letters in one day from retailers for this or that item. A vacuum existed in trawls. It had to

be filled. He looked for continued activity in all branches of the business. His sales today would be 25 per cent greater if he could get the goods.

Mr. Rector said Omaha was becoming a very large butter center furnishing a market for farmers for 500 miles around. The present situation was excellent the drought in Europe, which had shut off importations of Danish and German butters, having materially improved conditions for the American butter market. Mr. Rector has 900 agencies and many plants.

Mr. Currie declared this was the first war to his knowledge when coal was at a lower price in September than in June or July. A change had come in the coal situation here. The smelters ordinarily consuming 150 tons of coal a day, now they use 50 tons. The packers were using only 50 tons, per cent of their normal quantity.

In general the foregoing matches ran pretty well with other cities visited. But Omaha seems to be doing better than the personal reports indicate. While 34th in population the city lately vaulted to 16th in

bank clearings. Its foremost two industries—packing and smelting—are dull today, the latter dreadfully so. Improvement in either line would have a pronounced effect. Today the packing plants employ 1,000 men. The smelters have less than half the usual force. The union Pacific shops had 1,791 men employed in January. 595 in June and have 1,192 today. With the varied changes of the last six months employment has remained almost stationary in Omaha at a total of 5,200.

The city does a jobbing business of about \$15,000,000 a year and has a manufacturing output of about \$100,000,000. It goes after business as do few cities in America. It makes a good deal of the market it commands. It has an organization called Ak-Sar-Ben which is Nebraska spelled backwards, which is a business hustler without compare. This organization puts on a show with from 150 to 200 men once a week so good as to attract people from far and near. Roosevelt, Taft and other great men have been invited. The club also has a carnival in the fall that is said to be a corker.

Of course Omaha merchants, re-

tail and wholesale, are not asleep while the people flock to the carnival. But Omaha does more. It goes out in force to tour the state. Brass bands go with them. The gentlemen parade and the bands play. Then the merchants call on the merchants of the towns to shake hands and exchange felicitations. No one is permitted to talk business. Take an order or violate the rule of keeping the whole affair social. But Omaha gets the business. These bands of business tourists have "covered" 125 towns in a week and made 55,000 social calls. This keeps Omaha in personal touch with the country people and promotes a friendly relation that has done wonders in increasing its business. It also has a market week spring

and fall in Omaha to which merchants big and little of all the country around are invited. This entertainment covers 5 days and has all the features dear to the middle west. There are prizes also which add spice to the affair. Among these are trips to Europe for husband and wife, trips to the Pacific Coast, etc., at the expense of Ak-Sar-Ben. Last spring 1,700 merchants big and little, from the country round registered for market week.

Omaha is a hustling, energetic, coming city. It has a big trade. It would be a much bigger industrial center if it could get cheap power. Today the costs of fuel hamper it in this regard. It is inevitable that our manufacturers now of the

east will march westward sooner or later bringing the factory nearer the source of raw material. Tanneries, shoe plants, textile mills and other departments of industry are gradually pointing westward. But fuel prices dominate in industry. Some people hold that there is potential energy enough in the rivers of this plains country for all needs. That is questionable. Despite fuel handicaps Omaha is making decided headway. In part this is due to its remarkable energetic chamber of commerce.

WOMEN'S MUSIC CLUB YEAR BOOKS AT HARMON'S STORE, SATURDAY AFTERNOON AND EVENING, SEPT. 17.

WOMEN'S MUSIC CLUB

A new and novel entertainment will be presented at the opening of the Women's Music Club, Sept. 29. Miss Mildred Lewis acts an entire play "Polly of the Circus," portraying eight characters in such a distinct manner as to make her audience forget for the moment that they are being entertained by a single artist. Instead of one speech she gives the entire production. Members of the Music Club please call for year books at Harmon's Store Saturday afternoon and evening, Sept. 17.

ROUND EARTH IDEA ALL WRONG?

Well, Here Comes Wilbur Glenn Voliva Declaring It Is:

HANDS OUT POINTS AS PROOF

All Standing Water Is Level,
His First Argument.

CHICAGO — The story of "The Village that Voted the Earth is Flat" has an earnest adherent in Wilbur Glenn Voliva, overseer of Zion, the religious community that Alexander Dowie founded at Zion City, a little to the north of Chicago.

Declaring that there is no proof whatever of the sphericity of the earth or that the earth has any motion, Overseer Voliva says he is "prepared to refute modern astronomy, scientifically as well as from the standpoint of the Bible."

POINTS GIVEN
Here are some of the points he advances:

"All the standing water is level. Let any one disprove it if he can. They cannot disprove it. This is conclusive evidence that the old Pythagorean-Copernican system of the sphericity of the earth is false."

"A man stood at Kingston, Jamaica, and saw the light-house at Hay and Harbor eighty-two miles distant, which is another conclusive proof that the sphericity of the earth is a fallacy."

"The midnight sun has been seen hundreds of times, but it would be absolutely impossible to see it on a sphere. You would have to look thru hundreds of miles of earth and rocks."

"There is a railroad in South America two thousand miles long which is almost perfectly level. The Suez Canal is a hundred miles long without locks and with scarcely any rise at all. Where is your curvature of the earth? There is none."

WORK OF DEVIL
No wonder higher critics and modern believers in the Copernican system of astronomy laugh at the flood and say that such a thing as a flood could not occur on a globe or a spherical earth—and I agree with them. They are perfectly right. That is what the Devil intended when he invented the modern astronomical theory — to destroy the Word of God.

"They say that eclipses are caused by the earth passing between the moon and the sun, causing the shadow; but how can you have an eclipse with both the sun and the moon above the horizon? It is a matter of record that there have been a number of eclipses with both the moon and the sun above the horizon. No one knows what causes eclipses."

"They tell you that the sun is ninety-two million miles away. I say at that, not only as a mathematician but also as a student of the Almighty's Word.

"Did God Almighty create the earth and then create a light to light it up and put it ninety-two million miles distant and make it a million times larger than the earth? What kind of a fool would build a house up in Kenosha and erect a light a hundred miles from it to light up his parlor?"

"They say that Science is not speculation, but if Science is true, then here can be no conflict between it and the Word of God — but when it comes to the Word of God, they have not a leg to stand on. I will take the Word of God and down any modern astronomer on the face of the earth and dispose of him in less than thirty minutes."

COMBING WON'T RID HAIR OF DANDRUFF

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this tonight, and by morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and flaking of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.

New Phases of the Tailored Suit

That Establish the Fall Mode for Women and Misses

There is the box coat suit that the petite, slender type wears so well, the suit that shows a Spanish influence with its nipped in waist line and smart flare, and the suit, very long of line, with its knee length coat. The new fashions, it seems, have been mindful of everyone this season, and kindly allow one to dress according to her own particular type. Most of them wear fur, which is flattering to every woman, and offer further inducement by their modern-ateness of price.

\$65 -- \$75 -- \$89.50

Other Suits—\$35 to \$275

Our fashion service extends to the larger woman as well as her slender sister. "Half sizes" in suits ranging as large as 50.

Straight From France

New Frocks to Wear Now

Present Engaging Styles in Crepe Silks and Cloth

If you want one of the lovely new crepes—and who wouldn't!—there are any number of types to please your fancy. You may have one with sleeves of a brilliantly contrasting color or all a-flutter with panels, or caught with

A metal jeweled girdle that gives a fascinating, barbaric touch.

As for the new tricotine and twills, they persist in straight, slim lines, knowing, doubtless, that they are most becoming any way. Silk braid trims many of them, and sometimes embroidery of Russian or Roumanian origin. There are coat dresses that are just the thing to wear with fur chokers.

SOFTEST JOB IN WORLD FOUND

Poet To Get \$5,000 For Year's Influence at University.

CHICAGO — (By International News Service) — Discovered—the world's softest job.

Robert Frost, New England poet, has it. All he has to do is live in Ann Arbor, Mich., and let his artistic influence flow out over the campus and thru the academic corridors of the University.

For this he receives \$5,000 a year.

And he doesn't have to instruct a single class in the art of making "blue" and "you" rhyme with the correct number of feet to a line.

According to an announcement by Dr. Marion Leroy Burton, president of the university, Mr. Frost was retained as the beginning of a plan to spread culture among the students thru the medium of personal contact rather than by classroom instruction.

STUDENTS WILL BENEFIT

"The student body will benefit immeasurably merely by contact with a great and loving personality," said Dr. Burton. "We desire only that the artist shall be merely a human being. This time we have chosen a poet. He will come to live here in September and remain for a year. Next time we may select a sculptor, a painter or a scholar. A gift of \$5,000 from former Governor

Charles S. Olson has made the poet's visit possible."

The new venture has created a sensation in academic circles here.

Following are a few opinions expressed by Chicago educators: "The experiment represents an interesting return to the patronage system of artists which broke down about one hundred and fifty years ago. It will be a great thing for the University of Chicago."

"It would be a great stroke of genius if universities would adopt this as a definite policy. Many men are hindered by classes. It's only a scholarship plan for professors instead of students."—Prof. C. F. Aesch, of Northwestern University.

Fall Opening

SATURDAY—AND ALL NEXT WEEK

A showing of high quality clothes for men, women and children.

Low Priced to Suit Your Purse

AND ON LIBERAL CREDIT TERMS

PRICE is the big consideration these days—and it is the need of good clothes at low prices that has guided us in buying and pricing these Fine New Fall Styles—and our prices are low—yet the quality of our Suits, Coats and Dresses was never higher, and the styles are unequalled. COME IN—SEE THIS FOR YOURSELF.

Here Are High Quality Clothes—On Credit

—Low Priced—Prices That Few Stores

Can Afford to Meet

How!

How can we sell fine clothes at low prices and extend liberal credit as well?

FIRST we buy in huge quantities in conjunction with a chain of stores.

SECOND we buy in the heart of the New York market.

THIRD we never buy from jobbers. We deal only with manufacturers and frequently we buy and manufacture materials ourselves.

FOURTH we stick close to our patrons' needs. We never impose fantastic high priced garments on our trade.

FIFTH the net result is that we buy only good clothes for men, women and children, but we buy them at lower prices than 99 out of every 100 retailers pay.

New Fall Suits

\$27⁵⁰

The most striking feature of these new suits is that they are mostly long tailored effects, many with the tailored severity modified by clever application of novelty stitching or braid. And there are some stunning suits in novelty models in which more or less elaborate embroidery is used effectively.

SINCLAIR MURDER PUZZLES POLICE

Slaying of Akron Man in Auto
Party Unsolved.

CIDER MILL MEN QUIZZED

Officers Fail to Find Clues—Ohio
News in Brief.

AKRON — (By Associated Press)
—More light on the circumstances
of the murder of Harry Sinclair, 40,
Akron sportsman, early yesterday.
is being sought today by Cleveland
and Akron police.

Two leads were followed yester-
day in an effort to run down the
identity of his slayer, but County
Prosecuting Attorney A. W. Doyle
reported little progress.

E. J. Fisher, 43, and W. L. (Cur-
ley) Jones, 37, proprietor and oper-
ator of a cider mill near Akron,
which the party of two men and two
women, including Sinclair, is known
to have visited before he was killed,
were grilled.

Both Jones and Fisher admitted
that the party stopped at the mill
late Wednesday evening. But where
they went after this, they say, is un-
known to them.

Sinclair was driving the roadster
of a friend, T. E. (Red) Smithers,
who was also in the party, when,
according to the story told by
Smithers, a car raced behind from
which two shots were fired which
the third shot fired as the pursuer
was passing killed Sinclair instantly.
The two women in the party subse-
quently Smithers story.

Friends of Sinclair state that he
was a former Philadelphia man and

that he had no known enemies.
He was known to the police as a
gambler and, police believe that he
may have some bitter enemies in
his profession. The police have
discarded the jealousy theory on
which they worked yesterday.

POLICE CHIEF SUSPENDED
NEWARK — Police Chief James
S. Sheridan was suspended by May-
or H. H. Scott, following the filing
of charges by the law and Order
League that the chief has been
derelict in his duties.

KILLED IN ACCIDENT
AKRON — Thomas J. Davis, 55,
real estate dealer and former post-
master at Barberton, was killed
when struck by a fire truck here.

DONAHUE'S SON DEAD
NEW PHILADELPHIA — Wil-
ber, infant son of former State Au-

ditor and Mrs. Vic Donahue, died
here.

MANSLAUGHTER CHARGE
MT. VERNON — Dwight Kunkle,
23, Amity, driver of the truck which
carried the projecting piece of lum-
ber which struck and killed O. H.
Harding of Columbus was charged
with manslaughter.

RACE DRIVER INJURED
BOWLING GREEN — Freddie
Pridemore, race horse driver,
probably was fatally injured in a
mishap during races at the Wood-
co fair here.

REFUSES INFORMATION
LONDON — Miss Mary Easter,
paid \$25 fine and will serve 14 days
in jail for refusing to give informa-
tion to the census taker. She said
she was a member of the Women's
Freedom League.

OPEN LETTERS

To Superintendent Collins

DEAR SIR: Having noted that you are experiencing trouble from numerous cases of truancy in public schools, I am emboldened to offer a suggestion. In our days of school attendance, many years ago, before the law of the land frowned on corporal punishment administered by teachers, the superintendent used to keep a hickory pointer under his desk.

Kids who were absent from school and couldn't present a satisfactory reason therefor, were sent to the office of the superintendent upstairs, to make the acquaintance of the hickory "gad." One experience was sufficient. It effectually remedied any future inclination to "play hooky."

LIMA BEANE.

To the Men

BE brave, brothers. Yesterday was supposed to be the last day for wearing straw hats. Nevertheless, I saw a number of you out today. Fine! I never was much on this conventionality stuff. If the sun continues to shine and the mercury lingers around the 80 mark, why not keep on the straw lids?

LIMA BEANE.

To Squirrel Hunters

DEAR FRIENDS: I prefer having my friends go on sticking around in the land of the living and am writing you this little admonition to exercise the greatest care and caution while you are in the woods, armed with a gun, during life hunting season.

One human life sacrificed to carelessness is worth more than all the guns and ammunition and squirrels and hunting licenses in the universe. If you must hunt, be careful.

LIMA BEANE.

To Mrs. C. Whitaker,
Lisbon, Ohio

DEAR MRS. WHITAKER: I hear you sang in public recently at the age of 95. Yet more interesting is the account of how you sing at home where you are still active. It is a happy home, where women sing at their work. A singing housewife means happiness, peace and contentment.

LIMA BEANE.

To Lima Voters

FRIENDS: Time is slipping away into the past quite rapidly and the time is not far off when you will be called upon to express, at the ballot box, your preference for members of the first commission under the new form of government for my city.

Election day is less than two months away and will be upon you almost before you know it. If you haven't already made up your mind concerning the five out of ten candidates presented, you intend to vote for, it is high time that you are investigating the men and the things they stand for, so that you will be able to vote intelligently.

In such things it is always better to look before you leap.

LIMA BEANE.

AS YOU LIKE IT

WHO ARE THESE FRIENDS,
GEORGE?

I called upon a friend of mine
Not very long ago,
And he was glad to see me too,
At least he told me so.
I wasn't long within his home;
He smiled, I saw him wink;
He whispered softly: "Come with me,
We'll have a little drink."
I called upon another friend,
I stayed with him a while;
It wasn't long before he said,
"Let's have a little smile."
I called upon a lady friend;
"So glad," she said, "come in."
It wasn't long before she asked
If I would like some gin.
Altho this town's supposed to be
Quite dry, it's all a bluff.
No matter whom I call upon,
They all have "lots of stuff."

SOMETHING JOB MISSED

Job was patient, but Man alive! He had a wife he must teach to drive.
He never was out on a crowded street.
Telling his wife what to do with her feet;
How to start the motor and how to steer.
Give it the gas or shift the gear.
And Job when teaching her how to back.
Never had her stall on a street car track.
Patient! Job was a novice sure! For all he suffered there came a cure.
But Job would have cursed, I will wager five.
Had he tried teaching his wife to drive;
I doubt that he would have kept his seat
In an auto zig-zagging down the street.
While he shouted aloud: "For pity's sake
Take your foot off the gas and use your brake!"
I wonder how Job would have liked to hear
The awful grind of a stripping gear? I wonder how he would have liked to be
In a car attempting to climb a tree? Job's book of trials wouldn't have been enriched
Had he taught his wife how the gears are switched.
He'd have had weep which but a few survive
Had he tried teaching his wife to drive.

A WIFE IN THE MAKING

By PHYLIS PHILLIPS

JACK'S HEART IS SHATTERED AGAIN

One week went by, and Cherry filled in her time with attending strictly to her business as long as was possible every day, and in paying calls and going carefully over her wardrobe. She found that her thoughts were happier when she was up to her eyes in something, and that her spirits slumped only when she sat down and allowed herself to think and be idle. Consequently there were few such moments for her.

She did her best to appear cheerful at mealtimes, and found that it was not so very hard after all to make oneself be a jolly little person. Jack and Jane were particularly nice to her, and many a good laugh the three of them had together in Cherry's room at night when the house was officially in bed.

Jack had twice transferred his affections since the pretty school teacher had come upon the scene. He was now deep in a desperate affair with a girl five years his senior, and this despite his recent words

of disapproval to Cherry concerning loving any one even two years older. His latest was Miss Dolly Anderson, soberly twenty-one, a pale, anemic girl with a pleasant manner. That the object of his burning affection did not seem particularly in love with him was of not the slightest consequence to Mr. Jack Randall. One loved for Love's sweet sake alone, he vowed, and Dolly was his because of the grand passion that he felt for her. What if he often had to stand by and see her sweepingly past him in Dick Harris's machine, smiling and happy? That was all part of life's scheme for greater joy than within him to greater heat. Harris, a mere butcher's son, could never hope to win a delicate, dainty maiden like the fair Dolly for his wife. He, Jack, would let her have her little fling. It was pathetically girlish, and in the end she would come to him humbly and offer him her heart. That was the way of girls. Maybe he would consider this priceless gift of hers. Maybe.

Imagine Jack's surprise, then, when after two, nay, three weeks of devotion to Miss Dolly, she an-

nounced her engagement to Dick Harris, clever and all. Words failed him. He deserted the movie theater, where Dolly made music for the multitudes each evening, for at least forty-eight hours. He dared not face his fickle love. He feared his own emotions.

It was Cherry who found him on the back porch some two days after the tragedy, attacking his third piece of apple pie. From all sight that young lady judged that reason had won where the very youthful Romeo was concerned. He was so thoroughly enjoying his pie.

It was invariably Cherry in whom Jack confided. He never went to his mother nor to Jane. That guileless child was always far too deeply enamored of someone herself. Jack had long since found this out. Sisters were sadly disappointing anyhow. Now with Cherry it was different. She was busy with Ned, only, and had plenty of time and tact to help a fellow along. His sister-in-law was a very worth while sort of a girl to Jack's way of thinking.

HEALTH HINTS

By William Brady, M. D.

DIFFICULTIES IN THE WAY

Writes a spoiled woman:
"I think you are entirely right in your stand against corsets, but there are difficulties in the way of putting your advice into effect, at least for one who has been wearing corsets for 10 years, tho it may be an easy matter for a young girl who has not yet adopted corsets."

"For instance, you advise wearing for the support of foundation of one's clothing such a waist as is commonly worn by children everywhere. The Ferris waist, I assume. I've tried it and while I admit its comfort still it allows my stomach, or more properly my abdomen to protrude rather prominently and spoil my appearance. Please Dr. Brady tell me if there is any sort of garment which will restrain or reduce me just a bit there without being harmful. How about the elastic sirdies? I bought one containing four steels, two fore and two aft, then had cold feet and put it away in a drawer."

"I've worn corsets 12 years, and when I wear none I feel fine, except for the difficulty mentioned."

Two years ago it would seem to be enough to spoil almost any woman. It takes approximately 10 years of artificial support with braces, casts, crutches, arch props, knee springs, corsets, belly bands, chest protectors, brassieres, liver pads, shoulder braces, and the like to suppress or smother reason, instinct or horse sense which assures normal individuals that no such support is necessary. Once upon a time, when men were more glib than they are now, and quack doctors were more brazen, a good many people were persuaded to purchase, at a prodigious price, a contraption called an "electric belt" which assured wonderfully strengthening and invigorating effects.

Abdomens normally do protrude in healthy persons. The abdomen is a vitally important organ of respiration. A healthy woman breathes with her abdomen more than with her chest. Chest breathing is an abnormality, an artificiality, forced upon the civilized woman by her vicious custom of interfering with natural abdominal breathing. The interference of even a loose corset or other support or appliance impairs abdominal and pelvic circulation, and thus accounts for most of the non-infectious pelvic disorders, irregularities and diseases of girls and women. Thousands of cases of dysmenorrhea, irregular or painful periods, are completely cured in a few months by the mere resumption of abdominal breathing, even when conditions have been aggravated by the use of various injurious "female topics."

A small abdomen, a slender waist, is, after all, a very ugly thing in a woman, from the viewpoint of beauty and art; just as ugly as is the now happily old-fashioned pointed shoe on a woman's foot, or the narrow French heel, which makes the foot look like a top heavy canal boat.

A little exercise, just a reasonable amount of daily exercise, will support the abdomen and "restrain" it more effectively than any appliance ever invented.

MAN IS FINED IN BOOZE CASE

New M. E. Pastor For Delphos Takes Up His Work.

DELPHOS.—(Special).—Harmon Brinkman, arrested here several days ago by Van Wert co. officers when a raid was made on the Denison Redmon farm, was charged with intoxication and resisting arrest, when arraigned at Van Wert Thursday. He was fined \$25. Unable to pay, Brinkman was remanded to jail. Delphos was fined \$300 by Mayor B. L. Jauman here, charged with selling intoxicating liquor, county officers state that Redmon may be taken on a new charge.

Rev W. A. Deaton has arrived here from Lima to take up his duties as pastor of the M. E. church. Deaton was formerly in charge of Epworth M. E. church in Lima. With his wife and mother, he came to Delphos Thursday. He succeeds Rev A. C. Rainsberger, who goes to Dayton.

Relatives here have been notified of the death of John Landick, a former Delphosian, at Spearville, Kansas, from tuberculosis, Wednesday. He is survived by his wife and five children. J. M. and Davis Landick of this city are brothers.

A seal stolen from the public library here recently, was found Thursday on a vacant lot in Main street, where it had been thrown by the thief who ransacked the library.

WOOL MARKET

BOSTON, Mass.—The Commercial Bulletin tomorrow will say: "There has been a fairly good business accomplished in wool this week, although the trade has not been very evenly distributed. Prices keep firm and low grades are inclined to strengthen slightly. A better tone, also, is reported in the goods markets. The foreign markets are strong."

GREENSBURG BANKER MAKES INTERESTING STATEMENT

How Two Years of Trouble Was Relieved When Nervous and Stomach Ills.

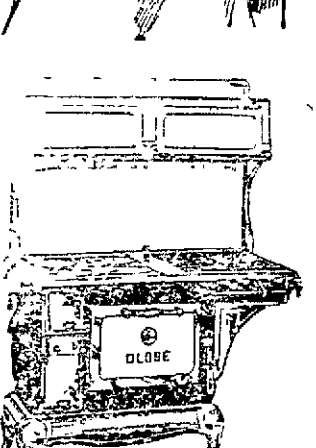

"For two years I had stomach trouble," said Nicholas Long, of the Merchants Trust Co., Greensburg, Pa. "As a result of this stomach trouble I was a nervous wreck, and I was very weak and practically in a downy condition. I doctored and tried all the remedies I could find in an effort to get relief, but it was without avail until I purchased a bottle of Nerv-Worth."

Stomach trouble disappeared. I eat well and I digest my food. I am sleeping fine. I certainly recommend Nerv-Worth to all who are troubled with stomach and nervous derangements. It has been found that when a stomach trouble exists, nervousness is usually present. Nerv-Worth, by acting on both the nerves and stomach, quickly gives the desired results, and aids toward restoring health. It just rearranges the stomach, by neutralizing excess acids, stopping the formation of gas, sweetening the stomach, aiding assimilation, stopping fermentation, and helping the whole digestive tract. It also aids nerve force, gives sound restful sleep, relieves dizziness, and other nervous afflictions, and thus, by this combined action, aids in restoring health and vigor. Nerv-Worth gives a trial, and be convinced. If your first trial bottle does not benefit you, your money will be refunded. Nerv-Worth is now \$1.00 per bottle. Nerv-Worth is sold and recommended by Hantz's Drug Store, Lima, O. M. Young, Van Wert; Gessner Drug Store, Lima; Drug Store, Kenton; Powell's Pharmacy, Bellefontaine; Munsell's, Defiance; and all leading druggists everywhere.—Adv.

CITIZENS REJECT ASSESSMENTS

Wapak People Refuse to Pay For Storm Water Sewer.

WAPAKONETA.—(Special).—Due to a storm of objection, council here found it necessary to remove special assessments from property owners on seven local streets for storm, water sewers and put them on the general tax duplicate. Property owners said they wouldn't pay. Only a sanitary sewer program will be paid for by special assessments.

John Z. White of the Henry George Lyceum, Chicago, addressed the Kiwanis club here on the single tax question.

When the W. O. Railway Co. disagreed with the Republic Asphalt Co. of Dayton regarding the laying of rails on W. Jackson-st under improvement in St. Marys, county commissioners entered into a supplementary contract with the company providing for the furnishing of rails to be paid by the railway, the county to pay costs of freight and unloading.

NORWOOD DEMOCRATS TO SUPPORT INDEPENDENTS

NORWOOD.—Norwood Democrats have decided not to fill vacancies on their ticket, but to support the independent ticket, despite objection of Albert H. Barth, central committeeman, who objected to abandoning the party ticket. He offered to obtain an entirely new set of names, but was turned down. Barth says he will vote the Republican ticket, rather than support Democrats on an independent slate.

BRIDE-TO-BE IS HONORED GUEST

HONORING Miss Helen O'Connor, bride-elect of Frederick Voss, Misses Marie Malley and Ruth Callahan entertained with dinner Thursday evening in the private dining room at the Elks Home. Deep pink roses were used as a centerpiece and a pleasing note was added with lighted rose candles with lavender tulle bows. Place cards and nut baskets were in keeping with the rose and lavender color scheme.

Miss O'Connor was presented with several handsome gifts for her new home, at the conclusion of the dinner, after which bridge was played during the remainder of the evening.

At the table places were reserved for the following: Miss Helen O'Connor, the honored guest; Misses Florence Mullen, Beatrice Werner, Irene O'Connor, Mrs. William Sheffield, Rose Irene O'Connor, Mrs. Alfred Muebach, Mrs. George Shanahan, Mrs. Florence Heppenhoff and Mrs. John Kraus.

Miss Marie Newman was chosen president of the Central High School Girls' Blue Triangle club, at a meeting Thursday at the Y. W. C. A. Other officers elected were: Helen Hughes, vice president; Lucille Conley, secretary; Marie Harlick, treasurer, and Misses Catherine Woodcock, Elizabeth Newson, Hilja Leete and Miss Lewis, advisors.

Members of the Daughters of the American Revolution who lack means of reaching the suburban home of Mrs. J. C. Pence, Saturday, for the meeting, are requested to call the committee on transportation, Mrs. M. T. McLaughlin and Mrs. D. C. Gamble, and arrangements will be made for them.

Mrs. F. H. Hutchinson and son, Kenneth, have returned from an extended vacation at Niagara Falls, New York and Atlantic City.

Mrs. F. X. Altenberger, Cleveland, is spending several days here with her daughter, Mrs. Richard Schroeder.

Mr. and Mrs. Louis Silverman, accompanied by Mrs. M. B. Gross and daughter, Miss Ethel Gross, left Friday for Cleveland, where they will attend the wedding of Miss Lela Cohen to George Lindenbaum, of this city. The ceremony will take place Sunday afternoon.

Mrs. Roy Reusch, Richfield, welcomed members of the Philathea class of Grace M. E. church to her home Thursday evening. The early part of the evening was devoted to the usual business routine, after which a social hour was enjoyed. The hostess served dainty refreshments at the conclusion of the evening.

Mrs. R. D. Chamberlain was hostess to members of the Coterie club at her home Thursday afternoon. The time was spent with needlework, after which a short musical program was given.

The tea was served at 5 o'clock by the hostess, assisted by her daughter, Miss Ruth Thompson. Guests for the afternoon were: Miss Corinne Westby, Mrs. M. P. Dawson and Miss Helen Dawson. The next meeting will be held in two weeks with Mrs. Frank Cahill.

Mr. and Mrs. R. D. Chamberlain, N. Washington-st., accompanied by Mr. and Mrs. Harry Davis, Piquette, will spend the week-end with friends in Bowling Green.

Misses Irene Latty and Cecil Paulkner entertained a merry party of young people Thursday evening with a steak roast at Elverson's Park, honoring Miss Ruth O'Connor, of Baltimore, Md.

Guests were: Miss Mildred Cole, Miss O'Connor, Mr. and Mrs. Harry Randall, Mr. and Mrs. Victor Sanders, Art Steinfeld, Charles Rockwell and Lawrence McGuire, also of Baltimore.

Mr. and Mrs. F. W. Crist, N. West-st., left Friday for a two weeks' visit with friends in Indianapolis.

Miss Margaret Gottfried, N. Baxter-st., has returned home after a three weeks' visit in Canada and at Buffalo and Niagara Falls.

College Women's Club, Mrs. Frank Downing, afternoon.

A joint conference of the Blue Triangle Clubs of Central and South High schools will be held Saturday at the suburban home of Mrs. E. N. Zellitz, Shawnee-tp. The conference will open at 10 o'clock with a brief address by Rev. Kirk O'Ferrall. Mrs. D. J. Cable, president of the Y. W. C. A. will give the address of welcome.

Others on the program for short talks are: Misses Erle Dempster, Catherine Woodcock, Mary Harter, Muriel Helen Hughes, Gail Parmenter, Ruth Seymour and Mrs. A. N. Wisely. Luncheon will be served at noon and the session resumed in the afternoon.

Mrs. Alice Beery, S. Franklin-st., left Friday for Columbus, where she will enter Ohio State University.

Miss Ruth Power, W. North-st., has returned home after spending the summer with her aunt, Mrs. L. L. Farahy, at their cottage at Mattawan, Mich.

NEW RADIO STATION

Commerce between Poland and the United States promises to be greatly enhanced with the election of a gigantic radio station in Warsaw.

Announcement of plans for this station has been made by the Radio Corporation of America.

The Warsaw station, it is planned, will be as large and as powerful as the American station at New Brunswick, N. J. It is estimated the complete project will cost about \$2,000,000.

The station will be equipped with two 200-kilowatt high frequency alternators built for the Radio Corporation by the General Electric Co.

The transmitting aerial wires will be approximately two miles long, supported by ten towers, each 400 feet high. The normal transmitting radius will be 1000 miles.

The first shipment of radio apparatus will leave the United States in about six months. It will take a year to complete the station and it is expected that commercial radio communication between Poland and the United States will begin early in 1923.

RUST ON IRON

To remove the rust from the grate or stove rub some scouring soap to a fine powder. Put a little oil in it and then rub the rust spots well with a piece of flannel dampened with the mixture. After this apply whiting and rub in well. Repeat the process for several days if necessary.

TAKE THE TASTE

Don't let food cool in the vessel in which it has been cooked. It is liable to take the taste of it.

LETTERS to LOVERS

Deserted Sweetheart and Woman Over 40

By WINONA WILCOX

"When the soldiers came back from the war, they did not, as a rule, return to the girls they left behind them, unless they were married or publicly affianced, or bound by an expensive, solitary act in platinum!"

Winona Wilcox, school girl. Think of it!

"In spite of myself, I adore the man still! I long to see him again. Dare I renew our correspondence?"

Well! If this peculiar comment holds true, it appears that the war has left an entire "class" of girls stranded in the shoals of spinsterhood!

I put the idea to an officer in a club of college women.

"To be sure!" she agreed. "Haven't you observed the tragedy in the lives of perfectly charming girls who came to the age of twenty in the years preceding disarmament? Why, I know a score who have lost their chances ever to be brides!"

"Because our young men were killed in the war?"

"No! Let me give you the ex-

planation I had from a nice lieutenant, my nephew. He had been going with a girl of twenty when the war broke. When he came back he found her informed and too critical. So he married a girl under eighteen. 'She was much easier to satisfy,' he said."

"You mean about things—clothes and her money?"

"No! No! Her financial demands proved decidedly unreasonable. But our lieutenant could put up with them because the lieutenant never questioned his opinions, nor made suggestions about his business, nor ever doubted his wisdom!"

"I wonder if THAT is the charm men find today in young girls with long curls!"

"I wonder!" came the echo.

Well—it is credibly an obvious asset of wisely devoted, I suggest, that the deserted sweetheart estimate the amount of her own before venturing to negotiate with her former lover.

Romantic love cannot be associated with a woman over forty, according to popular opinion. Nevertheless, it actually does harass many a mature widow, divorcee and spinster—or the recent disclosures are all wrong.

Consider this:

"How can a reserved woman of fifty, of some culture, best attract the love of a man who has honored her with some attention?—M. N."

"Seventeen" also asks this. For both there is a bit of ancient wisdom:

"Love which comes because it cannot stay away is the only kind worth having."

TESTED RECIPES FOR THE HOUSEWIFE

Parsley Potatoes—Twelve small new potatoes, one tablespoon butter or substitute, one-half teaspoon lemon juice, one tablespoon chopped parsley, salt and paprika to season.

Cook the potatoes without paring. When tender, drain and peel. Melt the butter, add lemon juice, parsley and seasoning and stir until well mixed.

Add the potatoes and shake the pan gently over a slow fire until the potatoes are hot and well coated with parsley.

Cheese Souffle—One cup of milk, one cup of grated cheese, three eggs, two tablespoons of butter, two tablespoons of flour, salt, pepper.

Heat the butter, stir in the flour and hot milk, and cook two minutes. Set away to cool, and when cool stir in cheese and egg yolks.

Beat the egg whites, turn into a buttered dish and bake about twenty-five minutes.

Cherry Cream Pie—Pastry: One and one-half cups flour, one-half cup lard, one-half cup ice water, two teaspoons salt.

Filling: One can sour cherries,

one and one-half cups sugar, one-half pint whipping cream.

Sift flour and salt together. Rub lard in with hands until well mixed.

Then add ice water to make a stiff dough (handle as little as possible).

Flour bread-board, take half of dough and roll out at one time. Place in pie dish, bake until brown.

Then take one-half can of drained cherries, place in each pie crust and sprinkle one-quarter cup of sugar over each. Put in oven about five minutes.

Whip cream and sweeten to suit taste; let chill until ready to serve, then put half of cream over each pie and serve. This makes two large pies.

SUGGESTIONS

A Grasse Jar—A large glass paste jar—the kind with a brush in a well—makes a handy container for the grease or oil used on baking tins, waffle irons, etc.

Cleaning the Machine—Clean the sewing machine with kerosene oil on a little piece of absorbent cotton and afterwards apply a good lubricating oil to the running parts.

LIVE UP TO YOUR FACE

By MME. MOREAU

PARIS—There now! It's a perfectly beautiful, black dress and you know he'll like it because it's one of those plain things with wonderful lines.

But what's the trouble with your face! It's usually such a nice, happy-looking face and somehow, now, in all of this fashionable black it looks drawn and, oh, so tired!

That means you'll have to put your ingenuity to practical use! You'll have to touch up, so you'll look up to your dress and that clever hat which puts off your face at a swagger angle.

And of course you'll enjoy making the mediums for this touching up process!

If you like to use powder, you can make a very nice one quite easily by mixing four ounces of powder, French chalk, two drams of oil of almonds and one dram of powdered camellia.

Be sure that you mix the whole thing well—spend a little too much time rather than too little.

A rouge ordinarily used for theatrical purposes can be prepared by mixing (fine) French chalk with any quantity of powdered camellia necessary to give it the desired tint. This isn't quite the velvety rouge which results when oil is used as a mixing medium.

Oh, be very sure—that you get the right sort of tone! If you're a pink velvet and appleblossom blond, don't use anything with an Oriental cast. And if you're one of those dark, luscious, languorous sort of folk, don't select an apple blossom tint.

CABBAGE PARTY

Out in some of the rural districts you'll still hear the older folk calling it cabbage night, instead of Halloween.

And so, with this idea in mind, the clever hostess gave a cabbage party on Halloween night. There were no flowers, none of the usual party decorations. Everything was cabbage!

The table centerpiece was a cabbage, the center of which had been scooped out and filled with grapes. Cabbage leaves shaded the electric bulbs and cabbage leaves hung from the ceiling, caught by black threads which were not visible.

Tiny round holders at each cover at the table, made by pulling a cabbage leaf into rounded shape, held bonbons.

Place cards were cut cabbage shape, painted a pale green and lettered in gold.

Even the brick ice cream was served on pretty inside cabbage leaves.

COUSINS IN LOVE

Are Informed Law Forbids Their Marriage

Dear Miss Smart: I have been in love with my first cousin for more than four years. We are both 25 years of age and he is also in love with me and has asked me to marry him. What shall I do?

ANXIOUS

YOU both know that a marriage between first cousins is forbidden by the laws of various states, including Ohio. This law was made because marriages between near relatives and even third and fourth cousins is never advisable, altho in some states second cousins are permitted to marry. If you can interest yourself in work, it will bring a new vision in your life and help you to overcome this disappointment.

Dear Miss Smart: I have received an announcement of the wedding of a girl friend, is it necessary for me to send her a gift?

A wedding announcement implies no obligation of sending a gift. If the girl is a dear friend, it would be nice for you to send her some little remembrance or gift for her new home. Otherwise, a little note of acknowledgment and expression of good wishes is all that is necessary.

Dear Miss Smart: Will you please publish the following questions and give answers in your column?

(1) What are the six largest cities in the United States in order as they stand?

(2) What are the six largest cities in Ohio in order?

(3) Who is the postmaster-general and his assistant?

(4) When will there be an examination in Lima for city mail carriers and what average is eligible for appointment?

(5) New York leads in population in the United States, with considerably over six million. Chicago is second, then Philadelphia, Detroit, Cleveland and St. Louis.

(6) Cleveland leads in Ohio, with approximately \$80,000. Cincinnati, Toledo, Columbus, Akron and Dayton in order.

(7) Postmaster General Will Hays has the following assistants in his department: Hubert Work, Ed Shaughnessy, W. Irving Glover and Harry H. Edlary.

(8) Examinations for city mail carriers will be held October 1 at the Lima post office. The passing average is 75 per cent and ex-service men will receive the preference. Further information and application blanks can be obtained from Clerk Walther at the postoffice.

A SCOUT FOR VIRGINIA

By HUGH PEINDESTER

There was an expectant glare in his gaze. I showed him the hair of the Shawnee.

"Good! Good!" he repeated. "Who be they?"

"The Grisdols. Only a short distance from here. Two men and the two children. No women." Trailing his double-barrel rifle, he took the lead and began a diagonal descent to the trace I had abandoned. I murmured a protest, but as he assured me.

"They're all behind us. We can make quicker time in the trace. They'll hop onto your trail sure's shootin'! Speed is what we hanker for."

His woodcraft was remarkable. He seemed to possess the gift of seeing that which was concealed.

He halted and I was almost afraid of him, when he started me by whipping up his rifle and firing. As the shot rang out he rejoiced.

"No use coverin' up any longer," he said. "They're closin' in. Make for the trace shortest way. Hold back once you hit it for me to come up. There's not more'n two or three close at hand, but the whole lot I heard the Deekhard fired once, and instantly the side of the ridge was as quiet as a death chamber. Then came the scream of a panther, Cousin's way of announcing a kill.

He fired again, and once more gave voice to his war-cry. Then the old, eternal quiet of the forest dropped back in place. The bushes stirred ahead. I dropped to the ground behind the horse, but it was young Cousin.

"Black Hoof's band. They're head to dodge," he whispered, striding rapidly along and swiveling his head from side to side. "How far to the Grisdol cabin?"

"Two miles."

"Then ride for it. I'll run at your stirrup. We'll need that cabin if it ain't burned."

Just as we turned from the main trace to strike into the path leading to the cabin my horse bolted sideways, crowding Cousin deep into the bushes. I reined in and stared down on a terrible sight—that of the four Grisdols. They lay in the path, head to head, in the form of a cross.

Once more we were off, but now Cousin ran behind for the way was winding and narrow.

The path ended in a natural opening, well grassed.

"There it is. The roof is partly burned!" I encouraged.

"The walls stand. The door's in place. Faster!"

Across the opening we raced. The cabin roof was burned thru at the front end. The door was partly open and uninjured.

As I leaped from my horse a fringe of savages broke from cover and began shooting. Cousin dropped

the foremost of them. I led the horse inside the cabin and my companion closed and barred the door. The interior of the place mutely related the tragic story. On the table was the breakfast of the family, scarcely touched. They had been surprised when just about one of the men had leaped to bar the door at the first alarm. I spied thru a peephole, but could see nothing of our foes. A low cry from Cousin alarmed me. He was overcome at the sight of a small apeiron.

"I wish I'd stuck to the open," he whispered. "The air o' this place chokes me."

"If we can stand them off till night we can send the horse galloping toward the woods to draw their fire. Then we can run for it."

"There won't be no darkness to-night," morosely replied Cousin. "They'll make big fires. They'll try to burn us out. We're well fortified till they git the roof blazin' ag'in. We'll 'low to stick here s'long, we can. They wout dare to hang round too long."

He took a big kettle from the fireplace and thrust it thru the hole in the roof. Bullets whistled overhead, with an occasional whang as a piece of lead hit the kettle and ricocheted. After the first volley the chorus of howls in the forest suddenly ceased, then were succeeded by sharp yelps of joy. Cousin stared at me in bewilderment. Darting to the back of the cabin, he peered thru a chink.

"Come here," he softly commanded. I joined him and took his place at the peephole. There was a haze of smoke in the eastern sky.

"That's why Black Hoof an' his men are hangin' round here," he sighed. "He sent a small band farther east. They've made a kill. That's a burnin' over there."

"That would be Edgely's cabin," I decided. "But they moved back to Dunlap's Creek three months ago."

"Thank God for that!" he exclaimed. "But we'll have more Indians round us mighty soon. I wish it was dark."

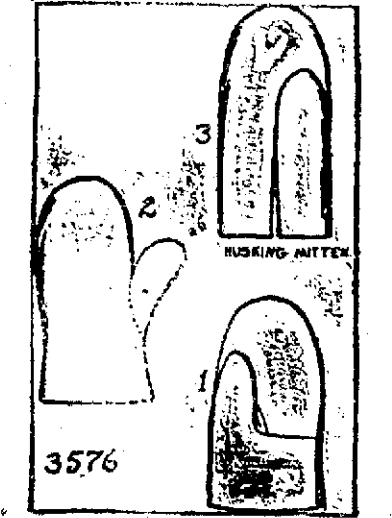

"They've stopped their yowling. Look out for fresh deviltry!"

He nodded and walked to the front of the cabin. The horse neighed shrilly. The call was echoed in the forest. The Indians continued silent. I heard it first; the voice of a man shouting fretfully, much as an angry child complains. Cousin understood it when a whimpering note was added.

"Baby Kirt!" he softly cried. "Black Hoof will 'low his medicine is mighty weak. Baby Kirt's in a bad frame o' mind. Somethin' is goin' ag'in, the grain. It's good medicine for us that he wandered up this way."

I began sketching the happenings of Howard's Creek, but before I could finish the bushes on the

MAKES HER LIFE WORTH WHILE

So Ohio Woman Says After Health Is Restored.

"Tania has been a blessing to me, as it has made life worth living," said Mrs. Irene Griffin, Terrell, Ohio.

"I actually dreaded going to the table as I knew no matter how careful I was about what I ate or how little I ate I would suffer misery hours afterwards. I even suffered at night so much from indigestion I couldn't sleep hardly at all. In the morning I would get up completely worn out. I almost despaired of getting well again, for nothing I tried seemed to reach my case."

"Tania did for me what all the other medicines I tried failed to do. Now I am in perfect health. I eat heartily and nothing disagrees with me and at night I sleep as calm and peaceful as a child. My complexion has cleared up and my friends tell me they never saw me look as well as I do now. I feel I owe more to Tania than I can ever repay."

Tania is sold in Lima by Hunter's Drug Store and by leading druggists everywhere.—Adv.

CUT THIS OUT

OLD ENGLISH REMEDY FOR CATARRH, CATARRHAL DEAFNESS AND HEAD NOISES

If you know of some one who is troubled with Catarrhal Deafness, head noises or ordinary catarrh cut out this formula and hand it to them and you may have been the means of saving some poor sufferer perhaps from total deafness. In England scientists for a long time past have recognized that catarrh is a constitutional disease and necessarily requires constitutional treatment.

Sprays, inhalers and nose douches are liable to irritate the delicate air passages and force the disease into the middle ear which frequently means total deafness, or else the disease may be driven down the air passages toward the lungs which is equally as dangerous. The following formula which is used extensively in the damp English climate is a constitutional treatment and should prove especially efficacious to sufferers here who live under more favorable climate conditions.

Secure from your druggist 1 ounce of Eucalypti (double strength). Take this home and add to it 4 pint of hot water and a little granulated sugar with undissolved. Take one tablespoonful four times a day. This will often bring quick relief from distressing head noises, closed nostrils, snoring, snoring, breathing become easy and hearing improve as the inflammation in the eustachian tubes is reduced. Paraffin used in the way acts directly upon the blood and mucous surfaces of the system and has a tonic action that helps to obtain the desired results. The preparation is easy to make, costs little and is pleasant to take. Every person who has catarrh or head noises or is hard of hearing should give this treatment a trial.—Adv.

Why My Friends All Take Yeast Vitamin Tablets Now

To Make Firm Flesh, Increase Energy and Beautify the Complexion

"Just as my friends all started to talk about the wonderful health and beauty of thousands, for Mastin's VITAMON contains not only highly concentrated giving properties of the vitamins in yeast and other raw foods, I heard about the more important vitamins (Fat soluble and water soluble C) which makes a concentrated form of true yeast-vitamins called Mastin's VITAMON. Once I started taking two of these tiny tablets with every meal I noticed their almost immediate effect. I felt better, my digestion improved, my skin cleared up, my nerves were calm and there seems to be no end to my new found energy. Now my friends who so admired the change in me are all turning to the Mastin's VITAMON tablets and not only find them easy and economical to take, but results are so surprisingly quick."

The enthusiasm of this writer is like that of so do not accept imitations or substitutes.

You can get Mastin's VITAMON tablets at all good druggists, such as Red Cross, Hunter's, Mykrantz, Enterprise.

Indians win. So do Yankees. Giants increase lead. Duro pump team plays Lima 10-0 here tomorrow.

Bunching hits with errors the Braves defeat Pirates, 6 to 3. If only Sergeant York could train down to the middleweight limit. Tommy Gibbons is knocking 'em out almost as fast as the mighty Bambino.

No, the baseball commission has invited Rainmaker Hatfield to attend the series. Smith's homer with Doc Layton on base gives Cardinals final game with Dodgers, 2 to 1.

Bert Cole, Tiger left hander, leads the Detroit gang to a 5 to 1 win over Red Sox. The average weight of the human male brain is 49 1/2 ounces. Yes, we know a lot of them too.

George Stenland, Rookie pitcher from Sioux Falls, is unsteady and Phils wallop Cubs, 6 to 3.

Here's the first one—Charlton Davis, West Virginia quarterback, broke his leg in scrimmage practice. Fritz Jones who hurls sometimes for the Independents, is slated to work against the Lucos here Saturday.

Peter Manning, 158, will endeavor to lower the world's mark for trotters at Columbus next Wednesday.

Phil Morrison, right hander of Birmingham club in the Southern association, is purchased by Pirates.

Weather Forecaster Emery, of Cleveland, says fair weather will prevail for Kiliare-Fresh battle tomorrow.

Freddie Frideamore, prominent harness horse driver is at point of death following a smash up on the Bowling Green track.

Pitcher Fred Ender and Catcher Bill Warwick, owned by Pirates, who have been playing with Birmingham, are returned to Pittsburgh.

"But time for a reprint of Audubon's famous book on 'Birds of America' so to include these famous birds, Babe Ruth and Jack Dempsey.

Oh, yes! Pretty near forgot—Babe Ruth smashed out his 55th home run when he smashed out a homer, and the fans smashed their straw hats.

It seems almost a shame that Lima hasn't a Babe Ruth so some of these Bambos would have some incentive to rid themselves of their straw caddies.

Tennis Semi-Finals

PHILADELPHIA — The semi-final matches of the lawn tennis singles tournament for the championship of the United States today brought together William T. Tilden, U. S. world's champion and Willis E. Davis, of San Francisco, in one contest and Wallace F. Johnson, Philadelphia and J. O. Anderson, Australia in the other.

GIANTS NOW LEAD NATIONAL BY ONE GAME

Yanks Are Holding To Their Lead

The New York Giants yesterday won their eighth straight game, the third straight from Cincinnati, and gained one full game on Pittsburgh in the National League race, the latter club losing to Boston.

The Cleveland Americans kept at the heels of the New York Yankees by twice winning from the Philadelphia Athletics while the Yankees duplicated the feat in a double victory over the St. Louis Browns.

Nine home runs brought the total for the major leagues up to 881 for the season, 232 ahead of the total for the entire 1929 season when 629 homers were hit. Making up this year's number to date, the American League players knocked out 444 homers and the National circuit batters 438.

BABE GETS 55TH
Chief among the crop of homers yesterday was Babe Ruth's which established a new world's record, beating his own mark of 54 of last year.

In establishing his world's record for home runs Ruth hit them with none on base, "one on" and "two on," but did not turn the trick with the bases filled.

In making his fifty-fifth yesterday off Pitcher Bayne of St. Louis he drove home one runner ahead of him. Nineteen of his homers came when there were no runners on the bases, twenty-six with one on base and ten with two runners on the sacks.

Ruth made his record in the games played from April 16 to September 15. In April he cracked out five circuit clouts, in May he added ten more, in June he made 13, in July and August ten each month and so far this month he has walloped the ball for seven homers.

Ruth has until October in which to add to his new mark. He was slightly hurt in the seventh inning of the second game with St. Louis yesterday and retired.

DOING OF LIDS
The keeper of the Polo grounds could wear a different hat every day for more than ten years if he had saved all the straws that were sacrificed yesterday when Ruth broke the world's home run record.

The fans were waiting for some excuse to get rid of their summer headgear, the season for which officially expired yesterday, and when Ruth hit his homer, hats fairly rained on the diamond.

A demon statistician essayed to count them after they had been raked into a pile by groundsmen, but quit on number 3,799 at dusk with a big heap still uncounted.

HERE'S CRUCIAL SERIES
The first of a three game series between the New York and Pittsburgh National League teams, which will more than likely be a deciding factor as to who will represent the National League in the annual world series against the American League winner, will open at Forbes field, the home of the Pirates, today. The second game will be played tomorrow and the final game on Monday.

Altho the American League pennant race has not yet decided, more applications have been received by the Cleveland baseball club for world's series tickets than the club can allow if the Indians win the flag, according to E. C. Barnard, business manager.

"Fans will save themselves postage and our office force needless work if they will discontinue sending applications," Mr. Barnard said. "Many that we have already received will have to be turned down."

Lima Kiwanians Beat Springfield

They went, they saw and they conquered.

Such is the story of the Lima Kiwanis led team who journeyed to Springfield Thursday and defeated the Springfield Kiwanians by a 6 to 4 score.

Red Thompson, hurling for the local team, pitched his best game of the season. He turned the Clark-co rang base with seven hits, and earned eight men.

Tip Pater, local infielder, while working in hitting practice sustained a broken nose when he failed to get out of the way of a fast one which took a bad hop. Tip was playing at second at the time of the accident.

The lineup was: Springfield—Elliott, cf; Baker, ss; Arton, p; Constable, cf; Harvey, 1b; Trout, 2b; Honer, 3b; Glend, rf; Faris, lf; Lima—Thomas, rf; Long, ss; Fawcett, 1b; Goodrich, 2b; Murphy, 3b; R. Phillips, cf; Schenk, lf; J. Phillips, c; Hoffman, p.

Score by Innings:
Lima 014 000 010—6 8 2
Springfield 010 003 000—4 7 2
Batteries: Hoffman and J. Phillips; Arton and Constable.

Champs Take Two

PHILADELPHIA — (Special) — The final games of the Indians—Athletics series were marked with no strange happenings. Maybe the final game wasn't so bad but the first shows a twin bill here yesterday afternoon was a weird and wild spectacle. Incidentally, the Champions took both games, making a clean sweep of the series. The first game went 17 to 3, while the second was 6 to 0.

A record for passes issued marked the first game when 27 free transportation were granted. Majlis led the list amounting 11, while Bishop was second with nine. Minor issued three, while Taylor and Wolfe each game up two.

Caldwell held the Mackmen runless in the last game, allowing them only five scattered hits.

FIRST GAME

STILL AT IT

CAMP PERRY, O. — The tyrant for the team which will participate in the National Rifle Association tournament was scheduled to be held today, when the twenty team members and the five alternates who will take part in the international small bore match to be held Sunday will be selected.

The American team will compete with teams from Canada, Australia and England, these teams shooting on their home ranges.

Another event on today's card was the national individual rifle match. The first stage of this event was finished late yesterday. The last three stages were to be shot on the 200, 300 and 500 yard rapid fire ranges.

CARNEY IS IN
CHAMPION, Ills. — Charles W. Carney, Illinois all-American and last year, appeared for first football yesterday. His appearance came as a surprise because of a serious injury to his knee last season. Sixty men turned out for practice.

BIG SIX BENEFIT

NEW YORK — The National League has subscribed \$3,000 for the testimonial game to Christy Mathewson, purchasing three boxes for the contest between the Giants and the Braves at the Polo grounds September 30.

CHAMPION JOHNNY KILBANE TOMORROW RISKS CROWN CAPTURED FROM ABE ATTEL

The day before the 13 round bout for the featherweight championship of the world between Johnny Kilbane, title holder and Danny Frush of Baltimore, challenge found an air of confidence at both training camps over the outcome. The principals worked out in private but statements from their managers were to the effect that the boys would enter the ring tomorrow afternoon in tip top condition.

Suzanne Says She Fears Not Defeat
NEW YORK — Suzanne Lenglen scoffed today at stories that have been going the rounds here to the effect that she had been fearing defeat for years and that the reversal she recently experienced in a match at Forest Hills with Mrs. Molla Bjurstedt Mallory caused her to suffer the extreme nervousness that marked her conduct in subsequent court appearances.

The French girl declared that she was not afraid to play any woman in the world and she was not afraid of defeat. There is no disgrace in defeat, she said, when the player has put forth his best effort. She added that she would, if able, go to the courts tomorrow against any opponent selected.

tion tournament at Madison Square Garden last winter by defeating Charles Beecher, Sammy Slegar and Tommy Noble, has sent word that he will be at the ringside to challenge the winner. Seat reservations also have been made for three champions—Jack Dempsey, heavyweight; Benny Leonard, lightweight and Jack Britton, welterweight.

Giants Take Series
CINCINNATI (Special) — Once again a rally on the part of the Giants spell defeat for the Cincinnati Reds. The Gothamites here yesterday afternoon staged a rally off Rube Marquard in the fifth inning and registered six runs. As a result of said rally, the Giants made a clean sweep of their series with the Reds, taking the final game by a 9 to 6 score. The Reds biffed the offerings of Jess Barnes consistently and made enough tallies to win an ordinary ball game, but the defense was shaky and therein lay the loss.

Michigan Gridders Reporting Rapidly
ANN ARBOR, Mich. — Thirty-seven of the forty-four men invited by Coach Yost to enter preliminary training for the University of Michigan football squads had reported today and the full roster is expected to be on hand early next week. Trainers reported all the candidates in excellent physical shape.

The largest coaching staff that ever took hold of Michigan football material so early in the season is to assist Yost this year. It numbers eight, including Tad Wieman, a former Michigan star, and Gus Goetz, captain of last year's eleven.

CAN MOVIES KEEP CUPID OUT OF DIVORCE COURT?

NEW YORK.—(By N. E. A. Service.)—Do you feel like cracking under the strain, chucking the whole business and dashing around to the divorce court?

Don't do it. Go and see a movie. Macpherson—have qualified as a for the movies—says Jeanie first aid to Cupid.

Never mind what the Blueawite says. You have Miss Macpherson's word for it that the screen play is the most powerful enemy of the divorce evil extant.

Miss Macpherson is a scenario writer and her typewriter usually runs at 100 per cent capacity turning out photoplays dealing with the quills and quarrels of matrimony.

"I'm not guessing, either," she says. "I have numerous letters from individuals all over the country who have felt the power of the photoplay in correcting little personal faults that might sooner or later bring about separation or divorce."

Oh, yes, novels and stage-plays carry a similar message. She admits that. But she points out that they can never hope to reach the masses as the movie does.

"Fritsies, petty things, are the seeds of most divorces," says Miss Macpherson. "Neither husband nor wife recognizes his or her guilt. That's where the screen play comes in. It shows up the little dark corners and points the way to remedy the evils."

The movie reveals each of us in our true colors and brings home to us our own faults. Tremendous results have already been accomplished.

But only the surface of this vast subject has been scratched. I believe the screen eventually will prove the educator that will reduce the divorce figures to the absolute minimum."

You will observe, of course, that Miss Macpherson is not Mrs. Macpherson, but Miss Macpherson. Yet she ought to know a lot about marriage because she has written such screen plays as "Old Wives for New," "Don't Change Your Husband," "Something to Think About," "Forbidden Fruit" and "The Affairs of Anatol," and now she is writing another dealing with the matrimonial problem.

Her view is that when Cupid starts something he can't finish, the movie often can solve the problem.

Miss Jeanie Macpherson, scenario writer, says that when Cupid starts something he can't finish the Movies furnish a splendid antidote.

ly gets there once more.

As we said before, the story could never have happened. However, you will love Miss White as Miss Marrio, and her supporting cast is pretty good. Somehow, one always likes Miss White. Even when her work is punk, she "herself" never fails to get over.

"Beyond Price" is appearing at the Sigma today and Saturday.

FEELIN' BLUE?

WHEN David Butler starts that made-to-order smile of his you can't help yourself. You sit and watch and the first thing you know you have a wide-spread grin on your face, like the well known cheesy cat. And when a picture makes you smile, you're sure that it has its good points.

"Smiling All The Way," which is appearing at the Lyric theatre, is pretty good fun. A great husky lumber-jack, by reason of his ability in making flap-jacks, wanders down to Greenwich Village and runs a "Purple Guinea Pig" joint, where all the bobbed-haired damsels, with smocks and rakish tams, congregate. His partner is a pretty society girl who found herself getting low on cash. And so the two of them make a big success of the thing until the auntie and the wealthy suitor appear on the horizon. Then things begin to happen.

A dastardly plot is hatched by which the villainous auntie and the suitor plan to bring the opposing little restaurant keeper to the yacht. They get her there, of course, but the adored husky lumberjack gets busy, reaches the yacht in the nick-of-time, administers terrible corporal punishment to the abductor by kicking his feet, and carries the girl off, who learns that true love can be found even in a restaurant, etc. and they live off, smiling, smiling.

Nothing very deep or thrilling about the whole thing. But it's a human story, with David Butler in a role that suits him exactly. Who else could do the ignorant-ambitious-to-learn - stuttering lovesick swain part with such true to life earnestness and precision? Not many, I bet you. Then there's Miss Leatrice Joy, a nice little body, who is learning to work her eyes like Priscilla Dean. Others in the cast, the auntie, the villain and little trickster, are able characters and

MOVIE SECRETS ARE REVEALED

Q—Why do Movie Stars sometimes in the movies wear wigs of the same color as their own hair?

A—They wear them to protect their own hair from effects of the exceedingly strong lights of the studios, which tend to bleach and deaden the lustre of the hair, and from the wind and rain when they are on location. Often an unusual style of dressing the hair necessitates the wearing of a wig.

Q—Of what material are movie screens made?

A—Some are made of duck covered with aluminum paint; others of cloth coated with aluminum paint or flat white paint, the surface being covered with tiny glass beads.

Q—What is the name of Marion Davies' new picture?

A—"Enchantment" the story of a young society girl who imagines her charms are greater than Cleopatra's.

Q—What movie actor has played the part of a millionaire more than fifty times?

A—J. Harry Sherer. He appeared in the role for the fifty-third time in "Back Pay."

Q—For what picture was it necessary to build a miniature city for the last scene?

A—For the last scene of "Get Rich Quick Wallingford" based on George M. Cohan's play it was necessary to build a miniature city to

light it for a night scene. The lighting problem was a difficult one. Small and powerful lights had to be specially made for the houses.

About how many costumes are needed in an average five reel picture? Read the answer in this department Sunday.

Send your questions about the Movies to the Movie Secrets editor of this paper, he will be glad to answer them.

One Big Feature of the PARKER FOUNTAIN PEN

How many times have you felt like cussing when your fountain pen leaked and soiled your fingers or clothes? That disagreeable feature has been entirely removed in the Parker Safety Sealed Fountain Pen. Owing to the improved construction of the cap on a Parker the point and ink are sealed up in the cap air tight—no possible chance for the ink to get out. Let us show you the way these pens are made—you'll agree with us that the Parker is the best pen. Ideal for the school boy or girl.

OUCH! MY CORN

Sounds familiar, doesn't it? Sufferers from corns and sore feet will do well to go to Mykrantz's and get their combination for marring the feet feel like new.

MYKRANTZ CORN REMOVER

Use it night and morning for five or six days, and then soak the foot in warm water for twenty to thirty minutes. Off comes the corn.

EASO FOOT POWDER

While you are using this corn remover be sure to follow the directions for the use of Easo Foot Powder. Easo positively removes the pain incident to the removal of the corn, because it acts as a lubricant and lessens foot friction against the shoe. Keep it dusted liberally in the shoes and gently rub it on the feet. Easo is the shoe word for the old saying—"makes walking a pleasure." Combined price for these two

MUTT GIVES ME A PAIN. JUST BECAUSE HE'S GOT A JOB IN THE MUSEUM OF NATURAL HISTORY HE INSISTS THAT I RUN OVER AND GET AN EYEFUL OF THE RELICS. I'M SO BUSY I REALLY CAN'T SPARE THE TIME! I'M RUSHED TO DEATH!

LOOK, JEFF, THIS STONE BELONGED TO 'KID' ALEXANDER, AND THOSE SLIPPERS WERE WORN BY JULIUS CAESAR! JULIUS WORE A NUMBER NINE.

WORK FAST, MUTT!

AND THIS STONE AXE WAS THE PROPERTY OF A PREHISTORIC MAN AND—

I GOTTA BE GOING, MUTT.

BUT WHAT'S YOUR HURRY, YOU JUST GOT HERE! GOT A DATE?

NO! IT'S A SECRET, MUTT, BUT I'LL TELL YOU! I'M WORKING TERRIBLY HARD!

I'M INVENTING A CARPET THAT WILL DO ITS OWN BEATING!
